

# SPACE 2085

You could think about:

- Will space travel be something people do for holidays or work?
- What kind of transport will we use to get around space?
- Could we live on another planet, and what would homes look like?
- What might we learn from moons, stars, or asteroids?
- Could we find life somewhere else in the universe?
- How will space exploration help us understand Earth better?

**Your first name** \_\_\_\_\_

Draw, design, or write how you think the world will look in 2085:

#Satellites | #SolarSystem | #SpaceTravel | #Mars | #ESA | #NASA | #INSS | #DiscoveringWater | #LivingInSpace | #Aliens

# POWERING 2085

You could think about:

- What new energy sources might we discover or invent?
- Will we still use fossil fuels, or only clean energy?
- How could cities, cars, and homes be powered differently?
- Could we store energy in new ways, like using air, water or movement?
- What will power technology in places with no access to electricity today?
- Will we all generate our own energy at home or school?

Your first name \_\_\_\_\_

Draw, design, or write how you think the world will look in 2085:

#Renewables | #SustainableEnergy | #Transport | #EnergySecurity | #CarbonFootprint | #EngineeringSolutions | #Electricity  
#EnergySources | #ConservingEnergy | #EnergyNeeds | #FiniteResources

# HEALTH 2085

You could think about:

- What new foods might we eat to stay healthy?
- Could we grow food in new ways, like in labs or space?
- How might robots help with surgeries or caring for people?
- What if we could personalise medicine just for your DNA?
- Could we cure diseases we can't cure today?
- Will wearable tech help us stay healthy all the time?

Your first name \_\_\_\_\_

Draw, design, or write how you think the world will look in 2085:

#Renewables | #SustainableEnergy | #Transport | #EnergySecurity | #CarbonFootprint | #EngineeringSolutions | #Electricity  
#EnergySources | #ConservingEnergy | #EnergyNeeds | #FiniteResources

# GADGETS 2085

Your first name \_\_\_\_\_

Draw, design, or write how you think the world will look in 2085:

You could think about:

- What will phones, computers, or smart devices look like in 2085?
- Could we use brainwaves or gestures instead of buttons or screens?
- Will AI be part of everyday life—and how might it help us?
- What gadgets could help people with disabilities?
- How could future tech connect us or entertain us in new ways?
- Will everything be connected through smart technology?

#DigitalDevices | #Robotics | #AI | #Communication | #Satellites | #Health | #Travel | #Computers  
#Phone | #Entertainment

# EARTH 2085

You could think about:

- What will the climate be like in 2085, and how might it affect life?
- Could we live underwater, in the sky, or in completely new environments?
- What might animals or plants look like after adapting to change?
- How can we protect endangered species or ecosystems?
- Will we still eat the same food or grow it in different ways?
- How will we keep Earth healthy for future generations?
