

STEM Ambassadors

Posting an activity you'd like to offer

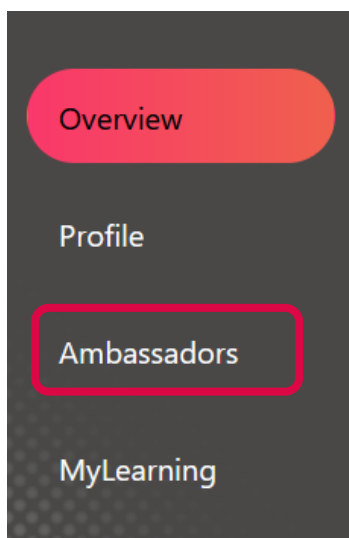

STEM Ambassadors can offer activities for teachers or youth group leaders to browse and request. These activities could be anything from a This is Me presentation for 14-year-olds, to a hands-on activity for 7-year-olds.

There are lots of ideas out there and we run regular training sessions to support you in developing your activity. You can find out more and register via the STEM Ambassadors platform.

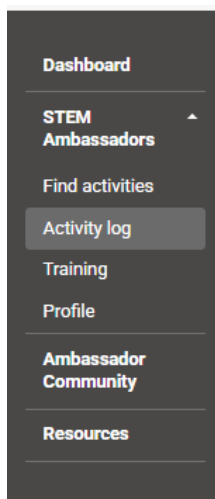

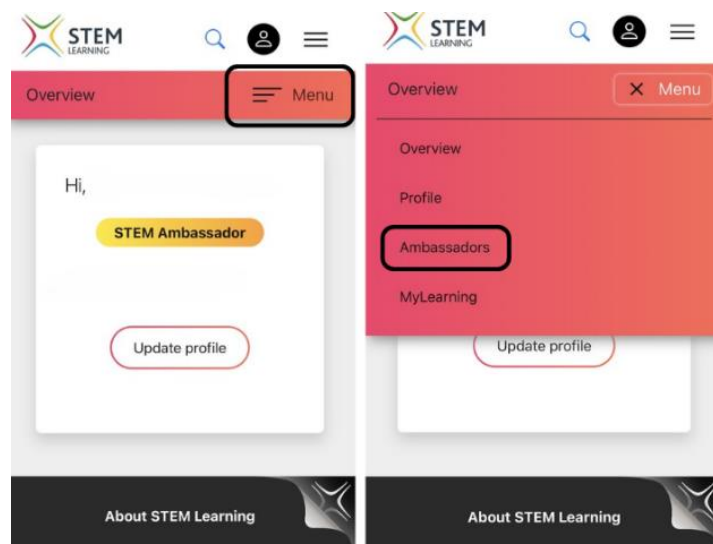

Log into your STEM Ambassadors account at www.stem.org.uk.

Once you have logged into your account, you will need to click the '**Ambassadors**' button on the left-hand side. For mobile view, you will need to click the drop-down menu in the pink bar first. This will take you to the full STEM Ambassadors platform.

Desktop view:

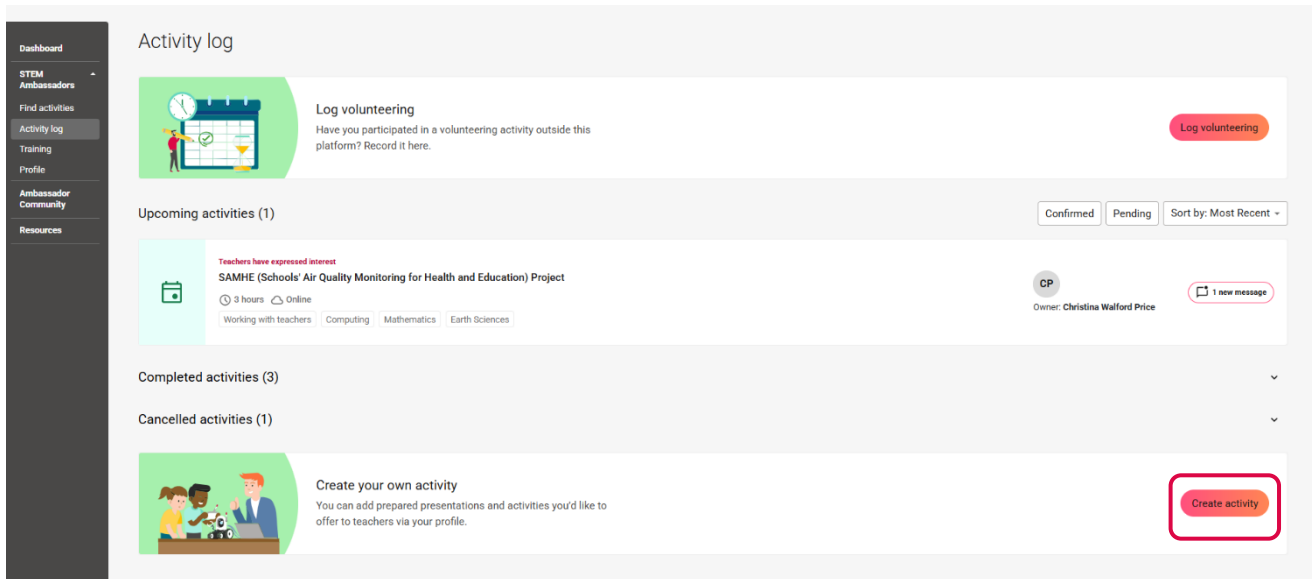

Mobile view:

Once you are logged in to the STEM Ambassadors platform, go to the menu bar on the left hand side and click 'Activity log'

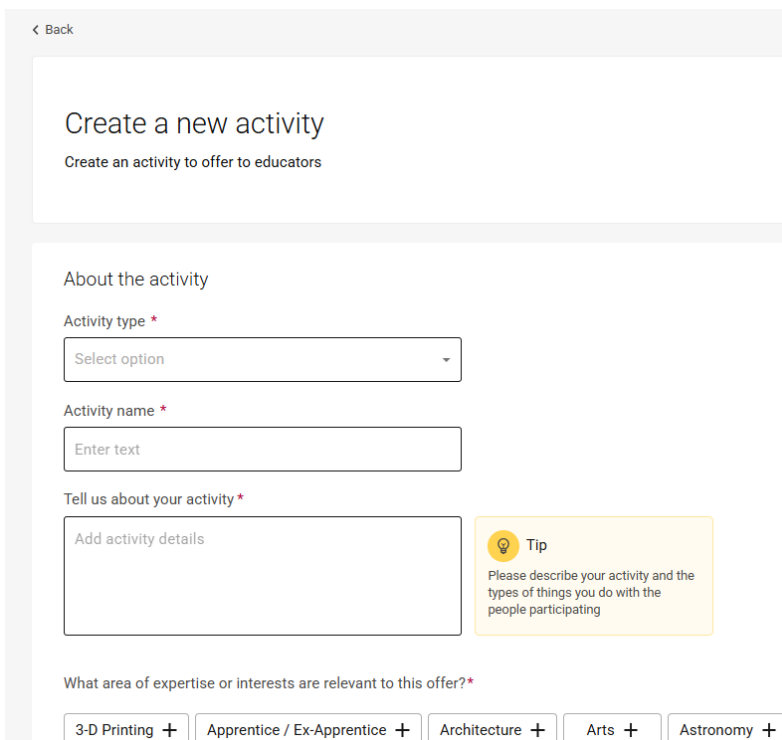

Here you can see any upcoming, completed or cancelled activities. You can add your activity you'd like to offer by clicking 'Create activity'

The screenshot shows the 'Activity log' dashboard. On the left is a sidebar with navigation links: Dashboard, STEM Ambassadors, Find activities, Activity log (selected), Training, Profile, Ambassador Community, and Resources. The main content area is titled 'Activity log' and includes a 'Log volunteering' section with a 'Log volunteering' button. Below this is a section for 'Upcoming activities (1)' with filters for 'Confirmed' and 'Pending', and a 'Sort by: Most Recent' dropdown. The activity listed is 'SAMHE (Schools' Air Quality Monitoring for Health and Education) Project' by Christina Walford Price, with a '1 new message' notification. Below this are sections for 'Completed activities (3)' and 'Cancelled activities (1)'. At the bottom is a 'Create your own activity' section with a 'Create activity' button highlighted by a red box.

From here, you will need to fill in the required information about your activity.

The screenshot shows the 'Create a new activity' form. It has a 'Back' link at the top left. The form is titled 'Create a new activity' with the subtitle 'Create an activity to offer to educators'. The 'About the activity' section includes a required 'Activity type' dropdown menu, a required 'Activity name' text input field, and a required 'Tell us about your activity' text area. A 'Tip' box suggests describing the activity and the types of things you do with the people participating. At the bottom, there is a section for 'What area of expertise or interests are relevant to this offer?' with buttons for '3-D Printing', 'Apprentice / Ex-Apprentice', 'Architecture', 'Arts', and 'Astronomy', each with a plus sign to indicate more options.

Make sure you use a good, clear title, as this is the first thing that will be seen when teachers or youth group leaders are browsing. It is also important to add a good description of what your activity involves.

If you would like more assistance on this, do attend one of our regular support sessions.

Where will the activity take place?

Activity location*

☒ Online ☐ In Person ☐ Both

Please enter the URL where this activity will take place if known

URL

This URL is where the Ambassador will go to join the activity. If you don't know it right now, you will be reminded before the activity to fill it in.

This will only be shown to confirmed ambassadors.

About the audience

Age of participants*

Maximum number of participants *

0

Duration

Total duration of the activity? (hours) *

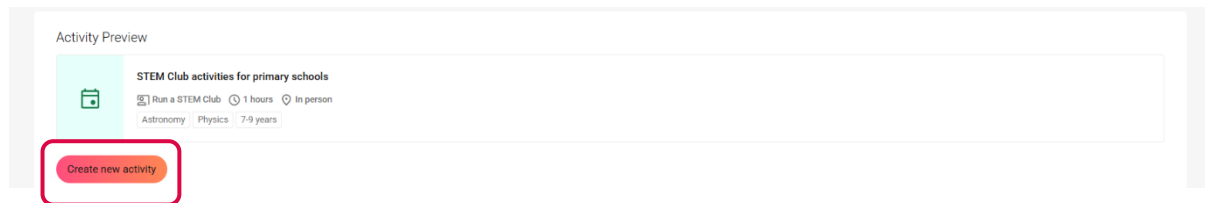

0

This duration reflects the actual time the activity was running and does not include any preparation time. Please round your time to the nearest hour.

You can choose whether your activity is online, in person, or both. If you choose in person, you will be asked to put a location in.

This specific location will not be shown to those browsing your activity – it will be used to show the activity to those local to you.

You will be able to see a small preview of your activity. Click 'Create new activity' to post it.

This activity will now be advertised to teachers and youth group leaders, alongside your public profile details, like your biography and employment details.

It will stay on your profile until you cancel or pause the activity:

Please check all the details are correct. If you need to update your activity, you can by using the 'Edit activity' button.

Interactive robots session

 Practical activity
  1 hours
  In person

Owner

London STEM Ambassador Hub Manager

CT Claire Tomkin

Description

This is for 7-9 year olds and I'll teach them to make a robot out of cardboard and a small motor. I can provide risk assessment info if needed. Happy to discuss in person or online. Would suit a class of 30.

Number of participants

20

More about Claire Tomkin

I have a degree in physics and worked as an 'Explainer' at the Science Museum, going on to later manage the team and the programmes for over 20 years. I now have a role as the London STEM Ambassador hub manager helping STEM volunteers support young people's STEM education.

Suitable for
